Hopefully everyone had a wonderful Summer! The weather was great giving us much summer fun here in Michigan.

With the end of summer comes the beginning of the MSS year.

We have many great speakers lined up throughout the year. As you know our first meeting of the year is September 28, 2011.

Steve Wagel from Toshiba is our sponsor this year and he is bringing in Dr. Dean Nakamoto from Cleveland Hospital with a lecture on Liver Doppler and TIPS Evaluation.

October is coming up fast and now it the time to visit the SDMS website to order you promotional kit for the Medical Ultrasound Awareness Month.!

I look forward to seeing you all as usual this year and I am looking forward to another great year as your Editor!

Best Regards,  
Pat Warner Editor 2011-2012
